

Our **Supported Living Services** program provides a broad range of independent living services for those with special needs. One-on-one direct services are provided to ensure that our participants are successful in their daily activities and live comfortably in a secure environment.

We offer quality individualized services and supports for people with developmental disabilities so they can lead independent, fulfilling lives. Our specialized and experienced Direct Service Workers form meaningful relationships with the people they serve.

## Our Credentials

UCP Greater New Orleans is staffed by a team of experienced, competent and caring professionals, and is governed by a diverse and talented team of volunteers. Both staff and volunteers include parents, family members and people with disabilities who are united in community and purpose.

A medical advisory board comprised of leading specialists in the fields of orthopedics, pediatrics, neurosurgery and dentistry contributes to the quality of services provided.

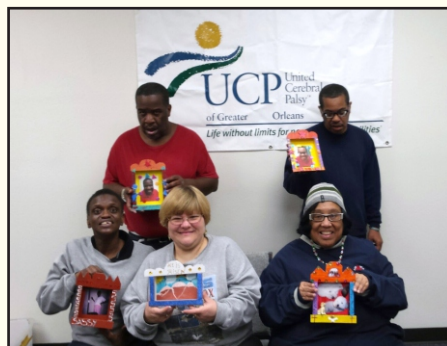

*We offer personalized services based on the needs and preferences of the client and family.*

For more than 65 years, we've assisted and supported the developmentally disabled community of Southeast Louisiana.

**It is our Mission and our Commitment.**

**We're More Than Our Name:  
Over 65% of the people we serve  
have disabilities OTHER than Cerebral Palsy.**

## Supported Living Services

*Creating a successful supported living  
environment for each person in our care.*

Building a safe, secure and independent future for a loved one with developmental disabilities\* is a challenge-- and a necessity. Many adults, even those with severe disabilities, are able to live in their own homes and become active members of the community because of us:

**United Cerebral Palsy  
of Greater New Orleans**

*\*Developmental disabilities include, but are not limited to, ASD (autism spectrum disorders), Epilepsy, Cerebral Palsy, Down Syndrome, and Traumatic Brain Injuries.*
